

To Whom It May Concern

I am writing to recommend Xiaomin Guo. I had the pleasure of getting to know Xiaomin in my Course “COMP214 – Advance Database Concepts”. She was very proactive on this course, and she demonstrate a high collaboration with her classmates in the group project.

On a personal level, she was very sociable and gives all in all course activities during and after course hours. She brought a good balance to the course students, a hard-work student with the added value of comradeship.

If you have any further questions or need any further information about Xiaomin, feel free to contact me at yvanega1@my.centennialcollege.ca

Sincerely,
